Summary

Software Developer with 6+ years of experience building scalable web and mobile applications using React, Next.js, and React Native. Delivered impactful e-commerce and agricultural solutions, driving operational efficiency. Skilled in leading teams and implementing agile workflows.

Skills

- **Frontend Development:** React, Next.js, React Native, TypeScript, Redux, VTEX, Sass, JavaScript, Magento
- **Tools & Platforms:** GraphQL, AWS, Firebase, WatermelonDB, Elasticsearch, Git/GitLab/GitHub, Figma
- **Methodologies & Practices:** Agile, Scrum, CI/CD

Experience

Independent Contractor, Freelance Frontend Developer Oct 2024 – Present

- **PulseFit (Fitness App):** Developed a fitness app with workout and nutrition tracking using React Native, AWS, and TypeScript, deployed on App Store/Play Store.
- **HudHudHub (E-commerce App, Qatar):** Built a grocery app with e-commerce features using React Native, Firebase, and TypeScript, deployed regionally.

Aktivna Technologies (CNHi, Makro Pro), Remote – Software Developer Sep 2022 – Sep 2024

- Led end-to-end e-commerce platform development using Next.js and GraphQL, driving scalability.
- Self-taught Next.js in 2 days to contribute to a major e-commerce project.
- Translated business requirements into technical specifications for efficient development.
- Developed a Bluetooth-based app using React Native, TypeScript, and WatermelonDB to stream and store tractor bale data offline, enabling real-time monitoring.
- Created a BLE simulator app with React Native to mimic tractor data streams, facilitating testing without hardware.

goHarness (Publicis Sapient), Remote – Associate Experience Technology L2 Oct 2021 – Sep 2022

- Developed e-commerce websites for 3 brands using React.js and VTEX, enhancing client engagement.
- Led 5+ proof-of-concepts with React and TypeScript, securing client approvals.
- Built responsive UI from Figma designs using React and Sass for cross-device compatibility.
- Followed Agile and Scrum methodologies using Git/GitHub for timely delivery.

goHarness, Chandigarh – Lead Mentor and Full-Stack Developer May 2019 – Sep 2021

- Led teams of 3–6 to deliver 5+ projects using React.js and React Native, ensuring client satisfaction.
- Implemented Elasticsearch for efficient text-based search across 10,000+ records.
- Developed responsive e-commerce platforms with Redux and Magento.
- Engaged with clients from Canada, USA, and Dubai to meet business requirements.

goHarness (Xceedance), Gurugram – Lead Full-Stack Trainer Jan 2020 – Mar 2020; Jan 2021 – Mar 2021

- Delivered 2 full-stack bootcamps, training 60 employees with hands-on exercises.
- Designed comprehensive capstone projects to enhance trainee skills.

Education

Bachelor of Computer Applications (BCA) Jul 2022 – Aug 2025

Chandigarh University, Chandigarh
